

```
NativeModules.MyComponentManager.doSomething(  
  this.props.reference,  
  'hello world');
```

MyComponentManager.swift

```
@objc public final func doSomething(  
    reference: String,  
    data: String) {  
  
    let myView = referenceMap[reference]  
    myView.doSomething(data)  
}
```
