## ReactViewController.swift

```
class ReactViewController {
  override open func viewDidLoad() {
    super.viewDidLoad()

    reactView.initializeReactView(
       componentName: componentName,
            props: propsWithReference())
}
```

```
SQS_CALLBACK_METHOD(
  doSomething:(nonnull NSString *)reference
    data:(nonnull NSString *)data,
  MyNativeWrapper,
  @selector(doSomething:), (@[data])
);
```
